Among us

Created in 2018, Among Us has become one of the gaming world's biggest breakout hits of recent years. In 2020, for example, it was the world's most-downloaded mobile game.

Read the #WakeUpWednesday guide's list of hazards that trusted adults should bear in mind.

As we have a number of children in school with severe food allergies, please could we remind all parents that school premises are NUT FREE and no products containing nuts should be brought into the school grounds.

If children are bringing a packed lunch to school it is important that there are no products in the lunch box that contain nuts.
